

Control Door, Count & Capacity

Control Door, Count & Capacity

"We wanted to know every person who came through our door. Even with 3 people on the door and a CCTV system, we were 'hit & miss' on identifying who people were. Our counts were off, cash never matched, and capacity was hard to manage. Plus, we would have to hunt for people we wanted to identify.

We were able to get an accurate count, match cash to that count, collect about \$1000 more per week, know our capacity, and find anybody who tore down a poster or took something they should not have.

The monthly fee is paid with about 1 day of effort.

Why wouldn't a company do this?"

Late Night Bar - Chicago, IL
