

## Samsung Recording and Sharing Conversations in Your Home

As we finish tweaking one of the most advanced, "Monster" surveillance systems installed in any convenience store anywhere, we ask whether business analytics inside your place of business is equivalent to business analytics in your living room? When is enough, too much?

Quote:

The policy, a summary of which is also posted online, ominously advises users to, "Please be aware that if your spoken words include personal or other sensitive information, that information will be among the data captured and transmitted to a third party through your use of Voice Recognition."
